NAZIS EXPOSE LIEBMAN
LIEBMAN RUNS!

THE FORCES OF THE WHITE MAN have just won a stunning victory over the rotten Jewish schemers. But our victory will not be chronicled anywhere, -at least not yet.

In the Rockwell Report for Feb. 15, (Number 9), we exposed the vicious infiltration and manipulation of sincere young right-wing patriots by the arrogant, Jewish "ex"-Communist, Marvin Liebman, who is the hidden dictator of Young Americans for Freedom. The Y.A.F. is composed of thousands of basically honest young conservatives, who are concerned about America's constant retreat before the Communist colossus.

Left to their own devices, these young people would have inevitably found out for themselves the glaring fact that Communism is Jewish. So the clever Jews organized and secretly direct this movement, in order to keep Y.A.F. tilting at wind-mills and rushing up cul du sacs.

One of our undercover operators in New York City exposed the fact that, although the Jew "ex"-Communist, Liebman, holds no office and is not supposed to be even a member of Y.A.F., he signs for and opens even registered mail for Y.A.F., whose offices strangely have the same address as Mr. Liebman's - 79 Madison Ave. Our agent also revealed that the Pitney-Bowes Postage Meter for Liebman's "Committee of One Million", which boasts Henry Luce, Paul Douglas, Jacob Javits and Hubert Humphrey on its letter head, and has the same number, (102150), as all Y.A.F.'s mailings.

With dozens of other equally damning facts we nailed Mr. Liebman and the Jews for misleading and exploiting the wonderful and growing anti-Communist sentiment among young Americans.

Thousands of the "ROCKWELL REPORT" exposing Liebman's sly misleading of Y.A.F. were mailed to young conservatives in most colleges in America, and were distributed wholesale in front of Madison Square Garden before and during Liebman's "Kosher Conservative" rally. Still more thousands of the "ROCKWELL REPORT" exposing the phoney "Kosher Conservative" Goldwater were mailed and also distributed at the same rally.

The immediate result was a guilty explosion by Goldwater at the rally itself, when he saw everybody reading the damning facts we had exposed. The panic-stricken senator flung aside his prepared speech, waved the "ROCKWELL REPORT" in the air and shouted that he was "proud to be a Jew" and then made one of the biggest mistakes of his life -. perhaps the fatal one - when he yelled "I've never known a Jew who wasn't a patriot!"

From the rear of the hall came the shout, "How about the Rosenbergs!"

It is certain that even the most ignorant and brainwashed people present must also have remembered the names of the rest of the atom traitors; Greenglass, Weinbaum, Brothman, Moscowitz, etc, etc, etc.

Satisfying as was the eliciting of this unguarded outburst, it was not nearly as worth-while as the more long-range result.

We have heard from young Y.A.F.'ers across the country that they were outraged when they learned how they were being horn-swoggled by sly Mr. Liebman. Most of them stated that they intended to look into the matter and do what they could to see that Y.A.F.'s leadership was as sincere as the young idealists who comprised the membership. They weren't bluffing!

Now our New York office informs us that Y.A.F. HAS MOVED OUT OF LIEBMAN'S DEN AT 79 MADISON AVE. TO NEW OFFICES OF ITS "OWN", at 167 Madison Ave. Y.A.F. also has its own telephone number and postage meter number, NOW!

This shows good work on the part of the grass roots membership of Y.A.F., and I wish we could

report that Y.A.F. could be considered "cleaned up" of treacherous leadership.

But this, unfortunately, would not be true.

Marvin's old puppets are still leading Y.A.F. even if from a new address a little further down the street. The strings to the puppets are a little longer, but when Marvin's Marionettes open their mouths, the voice is still Liebman's.

There is an incipient revolt against this revolting Jewish leadership of Y.A.F. in at least six colleges and universities that we know of, and after they receive a copy of this issue of the "ROCKWELL REPORT", perhaps Marvin will even be forced to get some new marionettes and cut some more strings. We intend to hound the Jew, LIEBMAN, with the damning facts of this phony leadership until Y.A.F. becomes the REAL anti-Communist ground-swell which it should be. Which, in turn, means that it will inevitably be ANTI-JEWISH.

Con-men and swindlers can not operate successfully in the glaring light of exposure, and the American Nazi Party will continue to supply sincere young Y.A.F.'ers with the provable facts which Liebman and his gang must keep hidden or be driven out for the scoundrels they are.

NAZI "TIT" FOR RED "TAT"

Readers who saw Operation Abolition will remember the disgusting and arrogant Red tactics of Carl Braden and Frank Wilkenson in organizing the San Francisco student riots against the House Committee on un-American Activities.

We know you will be tickled to learn that we have paid these Commie creeps back in good measure.

Two weeks ago these treasonable swine were released from Lewisburg Penitentiary, where they were sent a year ago for contempt of Congress.

They announced a rally here in Washington at a Unitarian "church".

So we planned a little surprise for them.

I sent about two dozen of our biggest and meanest Stormtroopers and some of the wives and girls to enter the meeting in "mufti" and sprinkle themselves throughout the audience in strategic places.

Our crew was quiet and respectful until about the middle of Mr. Wilkenson's speech, at which time Captain Ryan and Roger Foss jumped up in different parts of the hall and began to insist on asking questions, such as, "Do you mean you are a convicted criminal - here in this church!" and "Are you a traitor?"

The Red "storm-troops" began to move in on these two men, at which time two or three more of our men, and some of the women, rose up in other parts of the audience and began to demand to hear Ryan and Foss.

"This is an outrage!" shouted our Nazis, "Let them speak!"

The Red guards were un-decided on what to do next. When they started to move in on some of the smaller Nazis who were shouting, our heavy artillery stood up and began to roar, "Let them speak!", "This is an outrage!"

Lt. Roy James, who sometimes reminds me of a grizzley bear on his hind legs, and a few others equally as terrifying, stood up and joined the shouting, shaking their fists over the outrage of our being denied the right to speak.

We were only a handful but the thoroughly horrified Reds were panic-stricken and began to shout for the police.

The police officers duly approached Foss, Ryan, and a few others who appeared to be ring leaders and, hooking their hands in the Nazi's belts, started to drag them backwards out of the hall. At this, more of our women jumped up and began to scream and screech at the "outrage" while the rest began to chant "Let them stay!"

The police officers, we note with satisfaction, seemed exceptionally weak, and were able to "drag" our men out only a few inches at a time all the way through the audience, still shouting and demanding "free speech!"

By this time the meeting was an unmanageable uproar, with policemen, Nazis, Communists and "UNITARIANS" swarming in a wild melee.

Mr. Wilkenson's speech was a wreck. He was actually whimpering and whining in a quavering, terrified squeak.

It will be sometime, we feel, before the reds again try such a meeting in the Washington area.

Parathetically, it is interesting and saddening to note that none of Mr. Buckley's "stormtroopers", nor the legions of Welch, Hoggis or Schwartz were to be found anywhere within miles of these Reds whom they so bravely attack with their mouths and their pens.

GREAT GENERAL GREAT AMERICAN LOUSY POLITICIAN

We sadly note that, exactly as we predicted, General Walker has been politically massacred the first time he entered the lists with professional, pork-barrel politicians.

When the General first resigned he held in his hands the power to electrify and unify the Right Wing for the first time since Douglas MacArthur was fired by Harry Truman.

We suggested that he should call a national convention of patriotic Americans and draw up a practical political program with real long range strategy and realistic acceptance of the facts of political life.

Had he built up a hard core of dedicated and unified fighters, over a period of two or three years, he could have forged the vitally necessary, vote-delivering, political MACHINE!

Instead, like most of the rest of the Right Wing, he failed to realize the enormous chasm between political theory and actual political practice.

The General reasoned, correctly, that he was preaching the truth, genuine patriotism and a program which most of the people really want. But here, again like the rest of the Right Wing, he failed to realize the incredible inertia of the kind of masses needed to deliver a large-scale, political victory.

All over America, - and the world for that matter, - there are rotten and unpopular politicians in office only because they understand the brutal facts of life in building a successful political mass machine. Popularity --- and countable votes at the ballot box are far from the same thing. The Right Wing, with its eternal parrotting of the misleading proverb, "the Truth shall make you free," continues blindly to march to the polls with its eyes on the stars; oblivious of the stony and twisted path of hard-boiled practical politics, and consequently stumbling at the first stone.

And so, like Walker (and Crommelin), our Right Wing patriots will continue to suffer humiliating and frustrating defeat until they finally understand the utter necessity of an old fashioned political MACHINE if we are ever to win political power.

MORE GOODS ON GOLDWATER

There were two news items last week which were simply too good to be true.

The great Kosher Conservative, "Izzy" Goldwater, doesn't want the Kikes or the Coons or his pinko friends to get the idea that he is giving them a fast shuffle and might REALLY be a "Conservative".

He can't come right out and say it, of course, so he has his kids do it for him.

Goldwater's daughter announced last week that she was planning to go to Israel upon graduation, next month, and work in a Kibbutz! A "Kibbutz", for the uninitiated, is a nakedly Communistic community which is called a "collective farm" where the idea originated (i.e.: Soviet Russia).

At the same time, just to be sure they touched all bases - Clan Goldwater announced that Goldwater's son would be joining the Peach Corps to go to Africa. Thus Barry reassures the Kikes, the Commies and the Coons that all this Conservative jazz is strictly for the sucker trade.

TRUTH WILL OUT!

No matter how diligently the Jews keep beating it to death and burying the body, the truth keeps crawling out of the grave to haunt the liars.

The most honored historian in English letters has written a scholarly study of the causes of World War II and has come up with the "astonishing" conclusion that the war was NOT instigated by Adolph Hitler, and that, if anybody instigated it, it was the war-mongering coterie around Winston Churchill.

This, of course, is not astonishing news to anyone who has ever tuned out the Jewish propaganda barrage long enough to think about World War II for himself.

The reason given in the propaganda, (and in all histories so far), for Britain and France going into WAR is that England and France had a treaty which required them to go to the aid of Poland if it were attacked.

Hitler attacked Poland in the West, so Britain and France declared war on Christian, anti-Communist Germany to "honor the treaty."

We are not reminded, and we are not supposed to remember, that almost simultaneously with the German march in the West, Stalin's Soviet hordes poured into Poland from the East. This, of course, was every bit as much a cause for England and France to declare war on Russia.

But they did NOT declare war on the Soviets.

They JOINED the Communist savages, who openly declare their brutal intent "to bury us," and we in America later became "allies" of that evil Communist monstrosity against the Christian bulwark of White Western civilization, "Germany."

One does not need much scholarly research to see which way the wind blows here. Any bar room diplomat should be able to see that there must have been some reason for declaring war on Hitler other than the one given.

But Mr. Taylor's book goes a great deal deeper than such perfunctory reasoning.

He examines the naked facts of Czechoslovakia, Austria, the Polish corridor, the request for the return of the German colonies, the remilitarization of the Rhineland, and all the rest of the campaigns in which Hitler is always pictured as a ruthless, bloodthirsty aggressor. Mr. A.J.P. Taylor utterly smashes this lie about Adolf Hitler and reveals what we have long known, that Hitler actually bent over backwards in the effort to AVOID armed conflict with anybody.

This scholarly (and sometimes a bit dry) study of the causes of World War II is especially remarkable because of Mr. Taylor's political background. He has long been known as one of the hot-eyed British liberals and an extreme Hitler-hater. His book makes abundantly clear that he still hates Adolf Hitler, (although he does not explain why) but he courageously and firmly insists that Hitler did no more than any upright German statesman should have done.

Amazingly enough, in view of the ultra-liberalism in the book business, this volumne can be found in many book stores, and it is highly recommended as a weapon with which to clobber the "Hitler-was-a-louse" idiots who will not read or investigate for themselves any of our Right Wing "literature."

Taylor's book is only "the first Robin of Spring." Remember, this book came out telling the truth about Adolf Hitler in the middle of the most fantastic deluge of Hate Germany and anti-Nazi propaganda ever turned loose on the world - including even the period of the war.

Sooner or later, some responsible historian is going to get sick of the dead Jews sliding into the lime pits, the piles of eyeglasses, baby shoes and false teeth, and is going to look into the six-million-dead-Kike bit with the same kind of historical integrity and scholarly reporting displayed in Mr. A.J.P. Taylor's book.

When this happens, who can imagine what the Jews will do then? They are already pouring it on with everything they have got. The propaganda COULDN'T get any thicker or more hysterical.

Perhaps they will claim that the whole six million were gassed, revived, and gassed again, thus making twelve million Jews gassed.

We are very greatful to the liberal Britisher, Mr. A.J.P. Taylor, for this scholarly work, which will finally dispel some of this Jew gas.
